

Dear Veterinarian;

Natalie Boutell is currently pet sitting for me. If my pets need emergency veterinary care, I authorized her to act on my behalf. If Natalie can reach me, I will work directly with veterinary staff (if possible) to make decisions about urgent veterinary care. If Natalie is unable to reach me, she has my permission to act as my agent to make decisions and authorize veterinary care as she sees fit and that she believes align most closely with my views. I will assume full responsibility for payment upon my return or by setting up a line of care with my veterinary care provider in advance.

If any of my pets need emergency care, I request that Natalie take my pets to this veterinarian/veterinary clinic:

Pet(s) name(s): _____

Doctor(s): _____

Clinic/Facility: _____

If there is no availability at the above clinic, I have allowed her to take my pets to the nearest emergency hospital.

This agreement is valid from the date below and grants permission for urgent veterinary care for all animals I legally own, without the need for additional authorizations each time that Natalie cares for my pet(s).

Printed name of legal owner: _____

Signature of legal owner: _____
